PROFESSIONAL SUMMARY

Computer Science and Information Systems student at the Egyptian Chinese University (GPA 3.75/4.00) with a strong interest in Cybersecurity and Networking. Building foundational skills in Linux, Kali Linux, TCP/IP networking, subnetting, network scanning, and traffic analysis, with hands-on exposure to Nmap and Wireshark. Additional experience in C++, Python, SQL, and relational database design. Seeking a Cybersecurity or SOC internship to gain practical experience and further develop technical security skills.

EDUCATION

Egyptian Chinese University (ECU)

Cairo, Egypt

Bachelor of Computer Science and Information Systems — Expected Graduation: 2028

- Cumulative GPA: 3.75 / 4.00
- Relevant coursework: Networking (TCP/IP), Cybersecurity Fundamentals, Computer Architecture, Data Structures & Algorithms, Object-Oriented Programming, Relational Databases, Database Design

CYBERSECURITY & TECHNICAL SKILLS

Cybersecurity: Cybersecurity Fundamentals, Network Security Fundamentals, Security Awareness

Networking: TCP/IP, IPv4, Subnetting, DNS, Network Troubleshooting, Common Network Protocols

Security Tools: Nmap, Wireshark, Kali Linux

Operating Systems: Linux, Kali Linux, Windows Fundamentals

Programming: C++, Python, SQL

Database: SQL Server, Relational Database Design, ERD, Stored Procedures, Triggers

PROJECTS

Subnet Calculator System

Python (Flask), C++, Arduino, TCP Sockets

- Developed a subnet calculator integrating Arduino hardware with a Python Flask backend
- Implemented TCP socket communication between hardware and backend
- Applied IPv4 addressing and subnetting concepts to calculate network information
- Processed and validated network input through a client-server architecture

Clinic Management System

C++

- Developed a console-based management system using C++ and Object-Oriented Programming principles
- Applied encapsulation, inheritance, polymorphism, and structured problem-solving to manage records and workflows

Cinema Booking Management System

SQL Server

- Designed a relational database schema and ERD for customers, reservations, screenings, and payments
- Implemented stored procedures and triggers to automate database operations and maintain data integrity

CERTIFICATIONS

- Introduction to Cybersecurity — Cisco Networking Academy (ELCC)
- Digital Safety and Security Awareness — Cisco Networking Academy (ELCC)
- Introduction to SQL — DataCamp
- Intermediate SQL — DataCamp

LANGUAGES

Arabic — Native | English — Intermediate

INTERESTS

Cybersecurity, Network Security, Security Operations, Software Development
